

The Matrix of all matter

Professor **Stephen Hawking** (1942-2018) physicist, cosmologist and atheist, lectured at the Georgia State University, "The remarkable fact is, that the values of these numbers seem to have been very finely adjusted to make possible the development of life."

The question remains, 'Who or what finely adjusted these numbers?'

Max Planck (1858-1947) Nobel scientist said, "We must assume behind this force (or Energy) the existence of a conscious and intelligent Mind. This Mind is the Matrix of all matter."

Werner Heisenberg (1901-1976) Nobel-Quantum Physicist stated, "The first gulp of natural sciences will make you an atheist, but at the bottom of the glass God is waiting for you."

Albert Einstein (1879-1955) Nobel scientist discovered the formula that governs all mass and everything that is. That is all matter that we see and feel, including you and me.

The formula is: $E=mc^2$
(*E*) Energy equals (*m*) mass, times (c^2) speed of light to the square, which is 186,000 miles/second, to the square, which is practically instantly.

The First Law of **Thermodynamics** states that, "Energy cannot be created nor destroyed."

Energy is and will always be.

God says, "I am, that I am." (Exodus 13:4).

Jesus said four times in the book of Revelation, "I am the Alpha and the Omega, the beginning and the end... the first and the last."

(Revelation 1:8,11 - 21:6 - 22:13)

God is the Energy that always is, and this means that mass can be created by God in an instant.

Planck wrote "Mind" with a capital letter, so did Einstein write the "E" of "Energy" in capital. Both were very aware that they were referring to God as the Mind and Energy, confirming the scripture that,

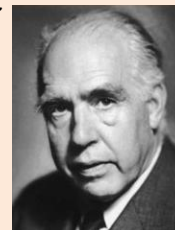

"by him all things consist." (Col.1:17)

Quantum Physics teaches us that all mass is ultimately Energy. $E=mc^2$ shows clearly that mass cannot exist without Energy, or without God. If $E = 0$ then this means that without God, or Energy, there is absolutely nothing.

$0 = mc^2$ cannot be, as $0 = 0$.

Niels Bohr (1885-1962) Nobel Prize Quantum Physicist stated,

"If quantum mechanics hasn't profoundly shocked you, you haven't understood it yet."

Everything we call real is made of things that cannot be regarded as real."

Scientists began to recognize that everything in the Universe is made out of energy!

Atoms are made out of invisible energy, not tangible matter.

As Paul wrote 2000 years ago, - (Hebrews 11:3) -

"So that things which are seen were not made of things which do appear."

SO HOW DID IT HAPPEN?

We learn from Genesis 1:1, "*In the beginning God created the heaven and the earth.*"

The literal translation by Young states, "*In the beginning God PREPARED the heaven and the earth.*" This is in the beginning, or before time was, he prepared it all just like we prepare a product, a website or a book. It could have taken God a millisecond or billions of years ad infinitum to prepare, as time did not yet exist.

"God made the earth and the heavens, and every plant of the field before it was in the earth, and every herb of the field before it grew:" (Gen.2:4,5)

The Spirit of wisdom speaks of this preparation time, "*When he had not yet made the earth, nor the fields... Before the mountains were settled... When he prepared the heavens, I was there... When he appointed the foundations of the earth...then I was by him...."* (Proverbs 8:5,7,25,27,29,30)

God prepared it in such amazing detail, before uploading it into our four dimensions of time, length, width and height, that science still constantly discovers new wonders. He could have done it all at the speed of light to the square, but He took his time - six days. At the end of every day, 'God saw that it was good.'

Besides our brain, our cells and our amazing make up, let's take a quick look at our DNA.

One human cell can store 1.5 GB data in its DNA.¹

The digital size of the Encyclopaedia Britannica is approx. 1 GB. Therefore one human cell can easily hold the data of all 32 volumes of the Encyclopaedia Britannica.

I quote: "The work, carried out (at Harvard) by George Church and Sri Kosuri, basically treats DNA as just another digital storage device... DNA can survive for hundreds of thousands of years in a box in your garage... In a **droplet of DNA** that would fit on the tip of your pinkie, if you'd store the same kind of data on hard drives, then you'd need 233 3TB drives, weighing 151 kilos, which is the densest storage medium in use today.

Biological storage allows us to record everything"

With the unbelievable complex DNA data storage taken from living creatures, there is no doubt that God is the unquestionable absolute pinnacle of science.

Mystics, philosophers and astrologers have all grappled with the questions of:

Where do we come from?

Where are we going?

Who put us here?

And most of all, Why?

We learn from Genesis that God spoke His Creation into being. Yet He formed man with His hands like the artist puts his heart and soul into creating his masterpiece, his Magnum Opus, his self-portrait. However we are recreating ourselves by our own personal decisions, which is our freedom of choice.

"God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul." (Gen.2:7)

CPR mouth-to-nose resuscitation to the max.

He created us in the four dimensional realm of: time, length, width and height. Yet He breathed life into us 'and man became a living soul'.

Our soul is what sets us apart from animals. No matter what anyone says or tries to match DNA's.

Our soul is from a much higher dimension. That is why we often feel like caged birds as our soul seeks to break free from these four dimensional limitations, craving for love and freedom.

KINETIC ENERGY

Science teaches us that Energy alone cannot create; it has to be active or kinetic Energy.

When God goes in to action He speaks and His Word becomes active, kinetic energy.

His Word **uploaded** creation into our four dimensions that we understand and are limited to. His Word was needed for creation to take place.

*'In the beginning was the Word... and **without the Word was not anything made that was made**. The Word was made flesh and dwelt among us. He came and we received him not.*

But as many as received him, to them gave he power to become the sons of God, even to them that believe on his name"- Jesus - (John 1)

Our soul and conscience gives us the freedom of choice and the responsibility of how we each develop our character. For this reason gold, diamonds and oil are found in the Earth, **ultimately to test our character**. Will we give or grab, share or shoot, love or loathe, help or hate, teach or torture, be kind or kill?

This has nothing to do with religion. God is totally not interested in religion and religious converts. Jesus said, "Unless you convert and become as a little child you cannot enter the Kingdom of God." (Mat.18:3)

...the Kingdom where citizens are loving and forgiving people with childlike faith.

Jesus busted religious boundaries and hypocrisy. He made God's love visible to us all by healing people, raising the dead ones and showing forgiveness. Jesus lifts us high above the **quagmire of religion** to connect us back to God, to the **Energy in its purest form: LOVE!**

Shatter those four dimensional parameters.

DO A BREAKOUT!

The best thing to do is find a quiet place and talk to Him like you would to your best friend... Don't worry, you are not losing your mind. Just tell Him, "Look, I am not very good at this praying business, but Jesus If you are real then I humbly ask that You manifest yourself to me." - And you will find Your eternal soul mate.
