

They found where Joshua asked the Lord to make the sun stand still!

“The sun stood still and the moon stayed, and hastened not to go down about a whole day!”

(Joshua 10:13)

They checked the computers going back into time.

The elapsed time that was missing back in Joshua's day was 23 hours and 20 minutes --not a full 24 hour day.

They read it again and it said **‘about a day’**.

If you cannot account for 40 minutes, you'll still be in trouble 1,000 years from now. The 40 minutes had to be found, because it can be multiplied many times over in orbits. That same employee remembered that somewhere it was written in the Bible that the sun went backwards.

The scientists told him he was out of his mind. However they decided to check it out and they read the following in 2nd Kings. King Hezekiah, on his deathbed, was visited by the prophet Isaiah who told him that he was not going to die.

Hezekiah asked for a sign as proof. Isaiah said,

“Do you want the sun to go ahead 10 degrees?”

Hezekiah said,

“It is nothing for the sun to go ahead 10 degrees, but let the shadow return backward 10 degrees.”

(2nd Kings 20:9-11)

Isaiah spoke to the Lord and he brought the shadow ten degrees backward!

Ancient Sundial

----- End of Mr. Hill's Speech -----

Mr. Harold Hill used the missing day in his speeches throughout the nineteen sixties.

Mr. Hill has been called a hoax and maligned as a fraud on the internet and that his story is a lie.

But was it?

James S. Lacy, from the Office of Public Relations for NASA, wrote in a letter that the only trace they could find of a Harold Hill having any connection with NASA was a person who was involved in contracting for the operations and maintenance of some diesel engine operations.

NASA seems to have no records about a Missing Day and hardly any records of who Mr. Harold Hill is.

Was Mr. Hill known to NASA?

Dr. Wernher von Braun was the director of NASA's Marshall Space Flight Center. It was under his leadership that the Apollo 11 was launched in 1969. This was during the time that Harold Hill was using the missing day story in his speeches.

IT IS CONVENIENTLY AVOIDED THAT MR. HAROLD HILL WAS A FRIEND OF DR. WERNHER VON BRAUN.

Why would Dr. von Braun in his well-thought-of and high placed position as the director of NASA's Marshall Space Flight Center and being an acquaintance of President Kennedy, keep friendship with a 'liar and religious crackpot' like Harold Hill, unless maybe Mr. Hill did speak the truth?

Dr. von Braun, 1912-'77

I was able to obtain a copy of the book 'From Goo to you by the way of the Zoo', by Harold Hill. This showed clearly that Mr. Hill was no stranger to NASA in the fact that both **Dr. Wernher von Braun and the astronaut James Irwin, wrote a foreword in this book**, which was published in the year 1976.

Supporting Evidence on Missing Day?

Historical records:

Aztec priests related to the Spanish scholar Bernadino de Sahagun (1499-1590) that the sun had acted in a most unusual way in the ancient past. He wrote that the Aztecs reported that in ancient times both the sun and the moon stood still shortly after sunrise. (Bernadino de Sahagun 'Historia General de las Cosas de Nueva Espana', VII,2 -1946)

Professor P. Jensen reported that the ancient **Babylonians** have an account of a "day twice the natural length" (P. Jensen 'Die Kosmologie der Babylonier', 39 -1890)

In the sixteenth century Mexican text 'Annals of Cuauhtitlan', which records the history of the **Culhuacan** empire in ancient Mexico, there is a record of a night that extended far longer than normal. ('Annals of the Cuauhtitlan', trans.)

Professor Olcot in his book on exploring the history of the **Peruvians** reported that there is an ancient account of a day that lasted twice the normal time. (Olcot, 'The Historical Lore of the Peruvians', 206 -1914)

The Greek historian Herodotus wrote that **Egyptian priests** had reported a most unusual solar event that occurred in the distant past. “The sun, however, had within this period of time, on four several occasions, moved from his wonted course, twice rising where he now sets and twice setting where he now rises.” (Herodotus, *The History of Herodotus* trans. Chpt. 2)

The **Quiché Mayans** of Guatemala wrote about the people’s reaction to a long night: “They did not sleep; they remained standing and great was the anxiety of their hearts and their stomachs for the coming of the dawn and the day. (*Popol Vuh* Part III, pp. 172-190.)

But isn't the Bible Obsolete?

Michael Drosnin writes in his no.1 bestseller book *The Bible Code*:

‘It was first chiselled in stone and handwritten on a parchment scroll, finally printed as a book, waiting for us to catch up with it by inventing a computer.’...

The Bible is constructed as a giant crossword puzzle. Skip X spaces, and another X spaces, and another X spaces, and the hidden message is spelled out... The hidden text of the Bible was encoded with a kind of time-lock. It could not be opened until the computer had been invented. The code is that hidden information is woven into the text of Genesis in the form of equidistant letter sequences. The effect is significant at the level of 99.998%...

Harold Gans (Senior code breaker for American intelligence at the Pentagon) was certain he could prove that the code did not exist... ‘It sent a chill up my spine’ recalled Gans... ‘At first I was 100% skeptical’ said the Pentagon code breaker. ‘I set out to disprove the code, and ended up proving it.’

In experiment after experiment the crossword puzzles were found only in the Bible... not in ‘War and Peace’, not in any other book, and not in **ten million** computer generated test cases.

Is it the Heliocentric hypothesis or Geocentric?

If the earth is a globe and spins on its axle, it travels 1000 miles per hour at the equator. Then the sundial going back ten degrees is an impossibility, as everything would crash and fly off the earth. Here we have a dilemma, if we believe the Bible to be the absolute truth then we have to rethink a bit.. Stay tuned; more to come.

The Tree of Education

‘A tree to be desired to make one wise,’ (Genesis 3:6) The desire for education and to show ourselves ‘wise’ at least wiser than God and His Word is stronger today than it has ever been. Modern Education will do anything to destroy our faith in the Bible, with lies so big and fabrications so captivating, that **most of us have accepted them as facts.** Much like the plantation owner will only teach his subjects how to do their particular job. He does not tell them the ins and outs of the overall plantation management and he will definitely not inform his captives that there is an escape route. That’s the reason the Bible is out of school, as it gives the overall, complete programme picture with the escape route and how to find it.

Download a [Free KJV study Bible](#) with search bar, click and it’ll be in your downloads to simply install on laptop or PC.

At <https://johanpeters.in> you find in **Free Downloads** leaflets like these on over 50 subjects, from Creation to Carbon dating and from RFID-Implant to Kingdom come. There are **eight books** on the home-page. Other sites sell my books, but on this site **all downloads are FREE – NO COOKIES - No information asked!**

The Missing Day

23:20 + 40 minutes

As told by Mr. Harold Hill, “At NASA, Green Belt, Maryland, they were checking the position of the sun, moon, and planets out in space, where they would be 100 years and 1,000 years from now... **We have to lay out the orbits in terms of the life of the satellite, and where the planets will be,** so the whole thing will not bog down.

They ran the computer measurements back and forth over the centuries and it came to a halt. The computer stopped and put up a red signal, which meant that there was something wrong, either with the information fed into it or with the results as compared to the standards.

They found there is a day missing in space over the measurements in elapsed time.

They searched and searched for a solution. But after many days there was no answer to be found.

Hard to Believe?

Finally, someone on the team said, “You know, one time I was in Sunday school and they talked about the sun standing still.” While the others didn't believe him, they didn't have an answer either, so they said, “Show us.”
