

where everything and all life forms originated.'

'Sorry, but this is contrary to factual science, as heat sterilizes and explosions without exception are all destructive. This brands '**Pseudoscience**' a **Religion**, and so pseudoscientists are free to believe and promote all that jazz, which literally takes the lid off **Pandora's Box**, as no evidence is needed to support these **atheistic fantasy hypotheses** and theories.

Hence the world of Science is Divided

The list of **creation scientists** is **ever growing**. But the loud ones with the money and media are the 'pseudos', so that is all we hear and read about. Anyone giving clear scientific proof from a creation point of view will lose his teaching job; be ridiculed as a Bible basher and a Sunday-school ignoramus.

Make the Lie Big and Keep Repeating it...

Goebbels (Hitler's propaganda minister)

said, "If you tell a **lie big enough and keep repeating it, people will eventually come to believe it...**

repress dissent, for truth (God's word) is the mortal enemy of the lie, and thus by extension, the truth is the greatest enemy of the State." - Is this where we are headed again?

Let's Compare: Our Origins

The Bible says, "God saw everything that he had made and it was very good. In six days." (Gen.1:31) When I went to school it was 40 thousand years, then it became 40 million, it rose to 4.5 billion years, and recently it increased to 13,770,000.000 years. These numbers are allegedly supported by the Rubidium Strontium technique and Carbon dating.

The Bible says: "He fixed the earth firm, immovable." (1Chr.16:30) "You fixed the earth on its foundation so that it never can be shaken." (Psalm 104:5)

"all the earth sits still, and is at rest." (Zechariah 1:11)

With big lies we need big numbers; Pseudoscience promulgates: the Earth spins a 1000 miles per hour on its axle (sound only travel 767 mph).

We speed around the sun at 67,000 mph (**107.000 km p/hour**), while our solar system rockets through the universe at 514,000 mph (**827.000 km p/hour**) on its trajectory. These numbers are beyond our limited everyday thinking so we just accept them. No equipment exists to verify these numbers, but it is **hypotheses supporting theories and the theories supporting these hypotheses** - the merry-go-round.

We think, the Bible says this; 'pseudos' operating under the cover of science, say that, so the truth must be somewhere in the middle and we start building our house on the sand. (Mat.7:29)

Paul called it, "False so-called science" (1Tim.6:20)

Next the Bible tells, "God created man in his own image... **male and female** he created them... and man became **a living soul.**" (Gen.1:27; 2:7)

The atheistic 'pseudos' try to match DNAs and that we're monkeys that evolved into humans. As for male and female; we should personally decide what sex we are. The mirror will tell you. Soul and afterlife is religious gibberish as with death it is finished.

Anthony Hopkins said, "Being an atheist must be like living in a closed cell with no window." - It pains me as it must be suffocating and that without light...

Enough Bible - What do the Highbrows say?

Dr. Philip Kitcher, in his anti-creationist book, claims that solid evidence that dinosaurs and man co-existed would 'shake the foundations of evolutionary theory.'¹ ('Abusing Science'1998, p. 121)

Professor Strahler (prof. geoscience, Columbia Uni.) writes that if "humans and dinosaurs lived at the same time. Such a finding would deal a crushing blow to the... hypothesis of a unique evolutionary sequence" (*Science and Earth History: Evolution / Creation Controversy* - pg.17)

Fun bathing in a Dino footprint

In 1908, George Adams discovered 14 giant **human footprints beside 134 dinosaur footprints** in the limestone riverbed of Paluxy Creek, Glen Rose, Texas.

This is however maligned as "a hoax and that these were **carved footprints**". Did I hear that right? Who'd possibly waste time to carve 14 human footprints, double the size of present day footprints, along at least 134 dinosaur tracks in a river bed?

This is a part of a cave pictograph in the Amazon Rainforest, depicting a Sauropod Dinosaur with nine hunters encircling the dinosaur. Obviously the dinosaur is alive, as one of the hunters raises his spear getting ready to strike.³

Lucy - The Missing Link

I quote, 'Scientists have discovered a remarkably complete skeleton of a 3-year-old female from the ape-man species represented by 'Lucy'... The remains are 3.3 million years old... 'It is pretty unbelievable' to find such a complete fossil from that long ago', said scientist Fred Spoor. 'It's a once-in-a-lifetime find.' (Spoor is professor of evolutionary anatomy at University College London)

'Judging by how well it was preserved, the skeleton may have come from a body that was **quickly buried by sediment in a flood**, the researchers said.'⁴

However, it is revealed that Lucy (Australopithecus afarensis) had an anatomy ideally suited to climbing trees and was no different from other apes...

The French scientific journal '**Science et Vie**' covered the story in 1999 under the headline "**Adieu, Lucy**".

Tel Aviv University anthropologists determined that Lucy's lower jaw bone is some kind of gorilla jaw bone... As a result, the evolutionary researchers concluded that **Lucy should no longer be considered man's direct ancestor.**⁵ With complex words and huge numbers we, "love and make a lie" (Rev.22:15).

Yet books on Lucy are still in university libraries, like Oxford (2017). Lucy remains part of the big evolution exhibitions to promote Science.

This is not Science, but Pseudoscience operating under the cover of Science, trying to give scientific credence to their cover-up jobs and outright lying.

Evidence Eliminating Filter

Cremona & Thompson, not Bible creationists, state in their book *'The Hidden History of the Human Race'*, "The primary point we are trying to make... there exists in the scientific community a knowledge filter that screens out unwelcome evidence. This has been going on for well over a century and continues to the present day... there also appear to be cases of more direct suppression. In the early 1950s... Lee was hounded from his Civil Service position into prolonged unemployment... **tons of artefacts vanished into storage bins of the National Museum of Canada**; the Director of the Museum... was fired.'

Noah's Ark Evidence into the Rubbish Bin

According to David Duckworth, who was employed in the vertebrate palaeontology section of the Smithsonian Institution it seems that in the fall of **1968 crates marked: 'MT ARARAT -- National Geographic / Smithsonian Expedition'** disappeared in the Smithsonian storage bins.⁶

Meet the Pseudos' Ancestors:

The Piltdown Man was constructed by using the jawbone belonging to an orang-utan, which was soaked in potassium so it would look like a fossil.⁷

The Homo Neanderthalensis: in 1958, Dr. A. J. Cave, explained at the Congress of Zoology that it was the skeleton of an older gentleman who had arthritis.⁸

The Heidelberg man came into existence by the inspiration of a jawbone found in Mauer, near

Heidelberg, which was considered quite human. Yet, it's another missing link in the 'evolution tree' which we have named 'the Tree of Life' after Genesis. (2:9)

The Homo Erectus: I wonder which body part was used to construct that missing link fellow?

Thousands [skeletons of Giants](#) were destroyed.⁹ The bone marrow of [dinosaurs is soft tissue](#) showing they lived recently. A MUST WATCH as scientists confront pseudoscientists.¹⁰

Refusing to Accept Evidence

Einstein said there are three kinds of people:

1. Those who see,
2. Those who see when they are shown,
3. Those who **do not see**.

I like to add number four,

4. There are none so blind, as those who **refuse to see**.

Marie Curie added the fifth,

5. There are **sadistic* scientists** who hurry to hunt down errors instead of establishing the truth.

(*Dictionary for sadistic: aggressive, brutal, cruel, vicious)

Marie Curie
1867-1934

The Pandora's Box of Atheistic Pseudoscience

- All Links are 100% Virus Free -

A 'Pandora's Box' has come to signify the source of endless complications or trouble, one whose origin is deceptively simple.¹

What is True, Honest to God Science?

The definition for Science is: to discover FACTS... to formulate laws and principles based on these FACTS that can be verified/tested by further investigation.²

What some of the greatest scientific minds express: **Einstein**, "The more I study science, the more I believe in God." **Planck**, "All matter only exists by virtue of a force. Behind this force is an intelligent and conscious Mind... which is the [Matrix of all matter](#)." **Heisenberg**, "The first gulp of natural science will make you an atheist, but at the bottom of the glass God is waiting for you." **Galileo**, "The laws of nature are written by the hand of God in the language of mathematics." From **Newton** to **J. Tour**, an almost endless list who knew it was designed.

Allow me to introduce 'Modern Pseudoscience'

It's progressive, not bound by traditional science. We're modern and do away with the past; especially the God-delusion and the Bible. We promote new theories without having to be bound by facts. Instead of creation or design we endorse fresh radical ideas like '[the Big Bang](#)' as our beginnings. This was the biggest, hottest and creative explosion
